CHEERS TO PENNSYLVANIA WINES

For over three centuries, the tradition of winemaking has flourished in Pennsylvania. What began in 1683 with America's first vineyard has grown into a vibrant industry of 12 Viticulture Areas, over 400 wineries, and 14,000+ acres of vineyards across the state. With a unique combination of rich soil, varied climates, and passionate growers, Pennsylvania now produces more than 2 million gallons of wine annually, reflecting a legacy rooted in both heritage and innovation.

Today, Pennsylvania ranks fifth in the nation for wine production and is gaining recognition for its incredible range of varietals, from dry reds and crisp whites to sparkling and sweet wines. This diversity is driven by the state's distinct growing regions, stretching from the shores of Lake Erie to the rolling hills of the Lehigh Valley. Whether you're a seasoned wine connoisseur or new to the world of wine, you'll find something that surprises and delights in every glass.
